What people are saying about the Sonoma™ Headphone System

“...the Sonoma M1 will reward you with a sound of spine-tingling clarity and dynamic ability, allied to an open spaciousness that makes almost any well-produced album an enthralling experience. Add in the sense of luxury of the whole enterprise and you have a very special system indeed.”

Andrew Everard, HI-FI NEWS

“It only takes about 8 seconds of listening... to realize that the Sonoma Model One headphone system is one of the most incredible personal listening experiences going.”

Jeff Dorgay, TONEAudio

“Over time I came to feel that I simply wouldn't be able to evaluate future electrostatic headphones and systems without being able to compare it to the Model One... Headphones should be evaluated on that score, and I'll need the Model One to compare. Up on the Wall of Fame it goes! Or maybe I just want one around because it sounds so good.”

Tyll Hertsens, INNERFIDELITY

“Just be forewarned that to hear Sonoma's Model One system in action is to want one of your very own.”

Chris Martens, HI-FI+

“Definitely top o' the heap for me! First-rank performance, in a seductively beautiful design, with a direct line from your ears to your soul. I haven't had a better experience with headphones, ever.”

David W. Robinson, POSITIVE FEEDBACK

“How does it sound? Spectacular. This system produces some of the most natural sounding music I have heard on full-size headphones.”

Lee Scoggins, PART-TIME AUDIOPHILE

“If you are in the market for a superbly neutral, revealing headphone system for critical listening or monitoring purposes the Sonoma Model One should be near the top of a very short list.”

Steven Stone, THE ABSOLUTE SOUND

“The Sonoma M1 offers a truly impressive listening experience at a price well below what one would expect to pay for such a capable system.”

John Lyon, ROBB REPORT

“Not only were the vocals simply some of the very best I've heard, but the sound staging and transparency were equally inspiring.”

Peter Pialis, HEADPHONE GURU
